Sub: Request to start a student organization - coding club in our college

Sir,

      We are putting this proposal Infront of you to seek permission to start a student organization – coding club in our college. The proposal main motto is to provide opportunity for the students to improve their knowledge in programming and enhance the skills.

      The main objectives of the club are as follows:

- Creating interest in programming for students.
- Guidance for a specific domain in technical field.
- To encourage students in participating software contests (competitions, hackathons etc.,)
- To provide information regarding placements.

Hence, we request you to support us to start a new organization which helps students to improve knowledge.

Thanking you sir

Your faith fully
